PROFILE

I am a Front-end Developer with a passion for creating highly efficient web applications. With a focus on performance optimization and UX/UI design, I have successfully contributed to projects for prestigious brands like Ford and Hyundai. My expertise includes using frameworks like React and Next.js, ensuring scalable solutions and high-quality architectural standards

PROFESSIONAL EXPERIENCE

Parallel 12/2024 – present

- **Architected dynamic, CMS-driven applications** using **Next.js** and **TypeScript** with layouts entirely managed via **Headless CMS**.
- **Engineered scalable UI libraries** and **optimized Core Web Vitals** while integrating **complex APIs** to ensure peak **SEO and performance**.

Uncle J 06/2024 – 12/2024

- **Scalable Web Development:** Developed and optimized **responsive web applications** using **React** with a focus on **scalable UI components**.
- **System Integration:** Engineered **seamless API integrations** while maintaining high standards of **accessibility (WCAG)** and **code efficiency**.

Eraasoft 02/2024 – 05/2024

- **Scalable React Apps:** Developed and scaled engaging web applications using **React** and advanced front-end architectures.
- **High-Quality UI/UX:** Focused on delivering intuitive, responsive interfaces with high technical standards to ensure client satisfaction.

PROJECTS

AutoConnect

- **Engineered a multi-tenant SaaS Admin Panel** with modular systems for **CMS, inventory, and financial workflows**.
- **Architected RBAC security** and **data-heavy React modules** for **order tracking** and **localized content delivery**.

Hyundai (Saudi Arabia & Middle East) [🔗](#)

- Developed **reusable responsive UI components** and implemented key sections across multiple pages following scalable front-end architecture.
- Worked on **payment integration** and enhanced application performance through rendering and **layout optimizations**.

[Hyundai KSA](#) [🔗](#) [Hyundai Middle East](#) [🔗](#)

Madinet Masr [🔗](#)

- Developed the Growth main and inner pages using reusable components and responsive layouts aligned with brand guidelines.
- Enhanced performance and optimized UI structure to provide a seamless user experience.

Lexus | Kuwait [🔗](#)

- Contributed to delivering a full-scale project by building responsive pages and reusable, maintainable UI components.
- Improved UI/UX and optimized SEO to enhance performance, visibility, and overall user experience.
- Designed intuitive interfaces and supported scalable, secure architecture ensuring a smooth user journey.

Ford

- Developed reusable UI components and built key pages **including Payment (Down Payment, Full Payment, Financing), Trims, and Thank-You pages**.
- Implemented full API integration, localization support, and seamless user flows across the platform.
- Ensured responsive design, consistent branding, and optimized user experience across all devices.

LMD [🔗](#)

- Delivered a full project by building responsive interfaces and reusable UI components with API integrations.
- Enhanced UI/UX and applied **SEO best practices to improve performance, search visibility, and user engagement**.
- Contributed to a secure, **scalable, and high-performance** user experience across the platform.

SKILLS

- **Core Stack & Testing:** Expert in **React, Next.js, TypeScript, JavaScript (ES6+)**, and **Jest**.
- **State & UI Systems:** Specialized in **Zustand, React Query, Redux, Tailwind CSS**, and **SCSS**.
- **Tools & Architecture:** Proficient in **Git, RESTful APIs, CMS-driven UI**, and **Core Web Vitals** optimization.

EDUCATION

Bachelor Degree In Business Information Systems, Helwan University

09/2020 – 06/2024

Gpa : 3.93

Overall Grade : Excellent with honors
